Clay Tiles
(Dust Pressed & Extruded)

**Stay Creative
Stay Sustainable
with Terracotta**

Wall Tiles are used for an extra protection to interior and exterior walls, besides the aesthetic appeal which it adds to the overall appearance. The wall cladding tile is a finishing material so the surface finishing is far better than the bricks and also provide extra insulation to the walls so that an added advantage of energy saving. Wall Cladding are a smart alternative for exposed brick masonry and more realistic. Clay Cladding Tiles are available in different sizes and thickness in both either Dust Pressed or Extruded. We can also take any customised order but are subjected to MOQ.

Features

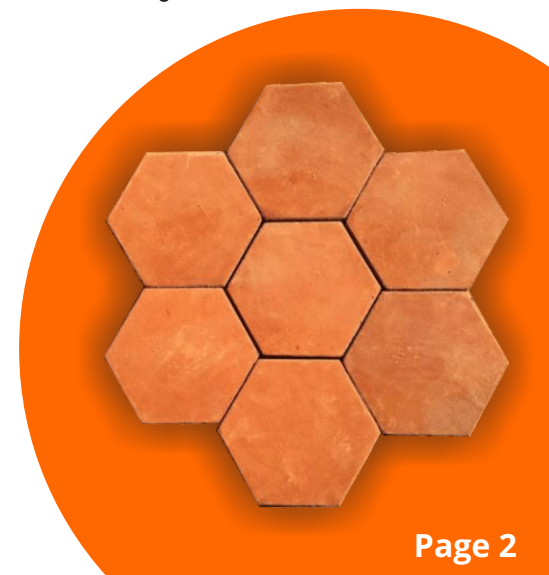

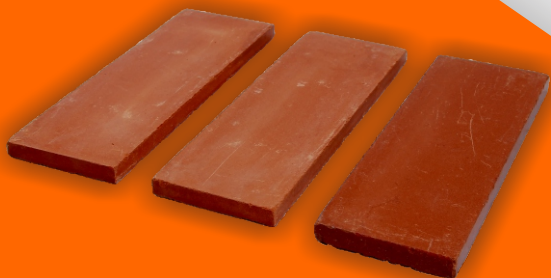

- Eco Friendly
- Lower Water Absorption
- Beautification
- Good Strength

Benefits

- Passive Fire Protection
- Thermal Insulation
- Cryogenic Insulation
- Cost Saving

Advantages

- Acoustic Insulation
- Hot Surface Insulation
- Combination Solution
- Extra Protection & Natural Beauty

Model Name - Floor Tile - Octa

Model No - CDP 01
