Cladding Bricks & Tiles

(Extruded & Powder Pressed)

Stay Creative
Stay Sustainable
with Terracotta

Cladding Bricks and Tiles are designed traditionally made out of pure clay are more durable used for an extra protection for interior and exterior walls. Cladding bricks and tiles are finishing materials provides an extra insulation to the walls so that an added advantage of energy saving. Cladding bricks and tiles are a smart alternative for exposed brick masonry with more realistic and are available in Powder Press - smooth finish and Extrusion – matt, rustic and antique finish are available in a different sizes and thickness.

Features

- Eco Friendly
- Lower Water Absorption
- Beautification
- Good Strength

Benefits

- Passive Fire Protection
- Thermal Insulation
- Cryogenic Insulation
- Cost Saving

Advantages

- Acoustic Insulation
- Hot Surface Insulation
- Combination Solution
- Extra Protection & Natural Beauty

Model No - CPP 01

Model Name - Wall Cladding - Pressed

Dimension - 16"x3"x18mm

Weight: 0.80 KG

Qty per Sft: 3 Nos

Model No - CPP 02
