Clay Jallies (Extruded)

**Stay Creative
Stay Sustainable
with Terracotta**

The Jaali or Ventilator brick - the term used for perforated or latticed screen became a preferred material for external facades and internal partitions, ceiling decorations. A Jaali wall saves time, materials and also increases the speed of construction. When there is no absolute necessity of solid walls, jaali wall gives added advantages. Jallies are made out of pure clay and are available in Extrusion with rustic finish and Powder Press with smooth finish. Jaalies comes with huge collections that can mix and match to create unique designs.
